

PISCINA GRP POOL PUMPS

Suitable for corrosive chemical applications

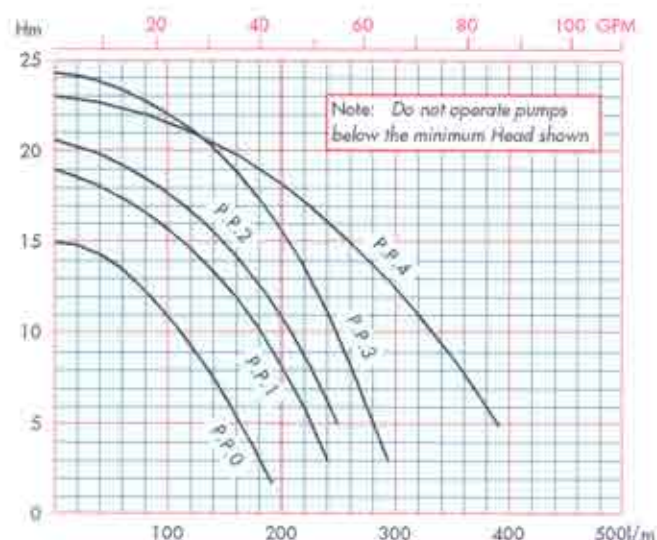

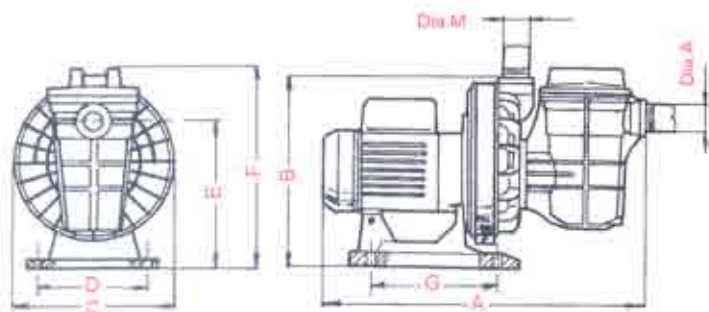

These high head/high flow pumps are designed to handle a wide range of corrosive chemicals and solutions. They feature a glass reinforced precision moulded body, strainer and baseplate, with Noryl impeller and stainless steel and corrosion proof fixings.

- Continuous duty with IP55 protection
- Overload/Capacitor protection
- Low operating costs
- Low sound levels
- 'See through' threaded strainer lid

Typical applications include:

- Swimming Pools • Water treatment • Agricultural
- Chemical processing • Metal treatment and plating
- Photographic film processing • Chemical transfer
- Chemical circulation and recovery • Fume scrubbers

Chemical compatibility list available on request.
